

HOOP STYLE FLOOR MOUNT

Description

Hoop style floor tenant bike racks have a maximum capacity of two bicycles per unit. No assembly required. Our hoop style bike racks are simply anchored to the concrete floor for secure, reliable storage. The small footprint takes up little floor space to maximize your storage area. Bicycles are secured horizontally for easy and fast access. Hoop style tenant bike racks accommodate all bicycle types, narrow and wide wheels. Sealed in a grey powder-coated paint finish for maximum durability and wear resistance.
